My Background & Design Philosophy

Those who have worked with me will tell you that I am professional, reliable, creative, friendly, and down-to-earth. I have an expansive passion for creating beauty out of chaos, and my balance of right/left-brained activity allows me to be both exceptionally organized and strategically creative.

With a unique blend of corporate management, freelance, and non-profit experience, I am able to bring empathy and a must-needed fresh perspective to my client's design challenges. I specialize in providing graphic design, web design, and brand identity solutions to companies that are ready to take their business to the next level in a way that is authentic, practical, and *sustainable*.
